

According to SmarterTravel, the savings could be surprisingly good. For example, the average taxi fare from Heathrow to downtown London is \$85 vs \$39 on Uber. From Las Vegas it's \$43 vs \$19, and Miami \$39 vs \$18. Almost makes you think of old times when rates were reasonable.

So, before you jump into a taxi when leaving home and after landing at the airport, plan ahead to contact Uber for an economic ride. And if you speak a bit of German, say billige Fahrt über alles. Despite what you may think, it actually means: Cheap taxi ride above all!
