

Four Seasons Resort Mauritius at Anahita is a tropical sanctuary that takes its inspiration from the dense mangroves and lush greenery that line the east Mauritian shoreline. The all-pool villa Resort combines the island's most comprehensive facilities with a contemporary Mauritian style, designed to invite interaction with the surrounding nature and the opportunities that it offers.

The Resort is part of the Anahita World Class Sanctuary, a private mixed-use development that includes Private Residences and the Four Seasons Golf Club Mauritius at Anahita with an 18-hole championship golf course designed by Ernie Els. Bordering one of Mauritius' largest lagoons, the Resort occupies its own stretch of coastline and extends across wooden bridges to encompass a private island, Ile aux Chats (4.5 hectares / 11 acres). Along its waterfront, the Resort features an intricate design of traditional Mauritian barachois (salt water dams).

The 123 single-storey Pool and Residence Villas occupy lush lagoon, garden and mangrove settings. Each villa features laid-back, outdoor living spaces with an al fresco shower, an extensive verandah, plunge pool and private garden filled with indigenous plants and trees. Signature Four Seasons service combines with an unpretentious ambience to create a sense of relaxation and a welcome connection to nature. Contemporary Mauritian style that seamlessly melds indoor and outdoor spaces
