

If your travels take you to the Famed Hollywood Walk of Fame this month, be sure to spend some time in this frightful location. Inside is the world's largest collection of serial killer artwork. Also antique funeral gear, mortician and coroner instruments, Manson Family memorabilia, pet death taxidermy, crime scene photos and more!

There's also a branch of the Museum of Death in New Orleans LA. For locations, hours and ticket costs, go to [www.museumofdeath.net](http://www.museumofdeath.net)
